About the Job

Aerospace Engineering & Support, Inc has been in operation for 30 years in Aerospace Manufacturing. We are looking for a person that has experience and is certified in Welding.

We are looking for an individual who:

- Performing standard welding assignments to include fabrication, maintenance, joining and cutting of aerospace metal parts and/or structures.
- Perform Gas Tungsten Arc Welding (TIG) and Metal Inert Gas (MIG) to process aluminum, steel parts, and assemblies to meet required tolerances.
- Determine layouts, welds parts and assemblies according to engineering drawings and specifications.
- Position, align and fit together fabricated parts to prepare assembly.
- Monitor and verify quality in accordance with statistical process and/or other control procedures.
- Must be able to read and understand blue prints, drawing and specs.

Required Experience & Education:

- Must be certified in welding
- Must have two years experience in Aerospace Welding/Fabrication
- Certification and/or experience in Seam and Spot Welding a plus.

Pay & Shift:

- DOE
- Monday through Friday 7am to 3:30 pm (Hours can be determined if interested in Part-time or as need basis)

If your qualifications meet our requirements and you are interested in this opportunity, please submit your resume to jstanger@aesut.com.
